PERSONAL AND GENERAL THE force at work on the Memph's and Selma railway have got the track up to good shape from the connection with the Missis-sippi and Tennessee road east as far as the ron was laid by the Wolffs contractors. Prack-laying will be continued to an interection with the Memphis and Charleston railway by the present contractors, THE gradion of the Texas, Santa Fe and Northern railway was completed last week

and all the bridges put in. The comm ers of Santa Fee unity have ordered a special el cities, to take place July 8th, to vote on a proposition to fluxt \$250,000 worth of books. n aid of the road, and it is confidently expected that the vote will be favorable. Should this be the case it is highly probable that the company will lease the property to the Rio Grande Company, and through trains will run from Denver to Santa Fe. THE London (Eng.) Money thus describes the new-fangled American railway security

called "collateral trust loans:" "These are occasionally issued by the American rail-roads. Most of these roads are made up of different short rands, which have from time to time been incorporated. When incorporaand bords are issued in place of it. But when one of these undertakings gets into difficulties—when it is not earning its fixed charges, is deep v in debt, with its mortgage bonds at a fearful discount—suddenly it re-members these so-called assets in its treasury, and immediately the directors meet and authorize the Executive Committee to

Today the prospects are brighter everywhere.

The iron manufacturers have yielded at Pitteburg, and postponed, at least, the strikes, whose consequences can scarcely be imagined. The coal mines have reduced production by a gradual process, which helps both sides. Peaceful comests have prevailed in the different railroad disputs; dividends are being declared by the leading roads, and there is much of an encouraging character."

Went Through the Bridge. BARABOO, Wis, June 29 .- As a freight train on the Northwestern road, drawn by 2 engines, was creeing the iron bridge near Norwalk, yeaterday morning the structure gave way, letting down both engines, with 3 cars on top of them. Albert Gettling, fireman of the first engine, was scalded to death, and W. H. Hallenbreck, engineer, engineer and fireman of the second en-
